- **11 Ways** to maximize your exposure in these products

GOOGLE DMO PARTNERSHIP

Explore Asheville is participating in a program with Google and Miles to improve how destinations appear within Google's products.

An aerial photograph of Asheville, North Carolina, showing a mix of modern and historic architecture. A prominent stone tower stands in the foreground. The city is surrounded by lush green hills and mountains in the distance under a clear sky. A semi-transparent dark grey box is overlaid on the center of the image, containing white text.

Understanding how travelers search for information about **Asheville** and what the destination looks like when they do.

How *your businesses* looks is an important part of how *Asheville* looks when a potential visitor is planning a trip.

**This is important to your business for
three reasons.**

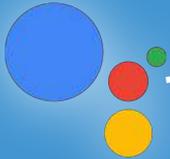

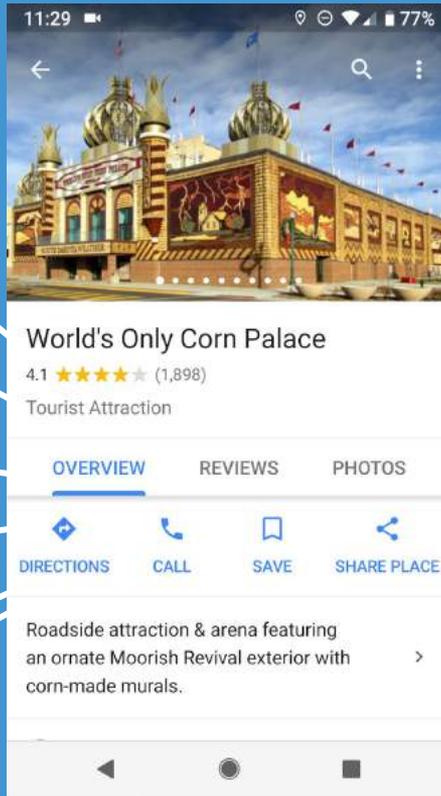

**Your KP is an enormous source of
exposure for your business.**

*In many cases the **largest** source!*

2

**The information about your business
gets used in a whole bunch of
different places.**

Most of that information is coming from your customers, not from you.

Yext Knowledge Manager

Your single source of truth for the public facts about your business.

Your customer data lives in a source of truth. Your employee data does too. So why let the public facts about your people, places, and products be scattered across multiple systems and spreadsheets — often with conflicting information and zero integration?

With the Yext Knowledge Manager, it's easy to update customers, partners, and business systems when your locations or delivery points move, or when your holiday hours or business operations change. With centralized control, you'll drive new efficiencies, win high-level customers, and sustain rich interactions everywhere online.

Great service, great cocktails, delicious food. Have the pork belly bao if you want your life to be complete. Mom had the lobster poached in butter with lemon ricotta ravioli and I had sushi. All of it was delicious. Servers were attentive and knowledgeable. Fantastic atmosphere—definitely sit outside. It's a covered patio with little fire heaters. We were very comfortable.

The meal and service we're the best I've had in years. Try the steak and brussel sprouts and you will see what I mean. After dinner have a 1930 recipe for an Amaretto Sour that was off the chart good, not sweet but just perfect. Remarkable dinner near one of a kind.

Thanks so much for your review, so glad you had a good experience at The Chop Shop. We pride ourselves on delivering quality service to our customers in Kalamazoo. If you liked our steak, you should try our double cut smoked pork chop on your next visit! Hope to see you again soon!

This was a huge disappointment. My wife and I paid \$24 for what was supposed to be the ten o'clock showing. The lights never came on and you only get one rotation. Definitely never again.

So sorry you had a bad experience, we typically begin our light show promptly at 10. During your visit we experienced some technical difficulties with the ride. My name is Robert, I am the manager. Please call our office and ask for me and I will provide you with free passes for your next ride.

This photo is good! It's both informative and attractive. Easy to understand what it is, where it's taken from, bright colors good contrast, good framing.

This photo is bad. It isn't attractive - off-kilter horizon, muddy colors, and it isn't particularly informative - unreadable signs/context.

The image shows a screenshot of the Google My Business interface for a business named "Ravish Honolulu". The interface is divided into a left sidebar and a main content area. The sidebar contains navigation options: Home, Posts, Info, Insights, Reviews, Messaging, Photos (highlighted), Bookings, Website, Users, Create an ad, Add new location, Manage locations, Linked accounts, Settings, and Support. The main content area shows the business profile with a "Video" section and a "Photos" section. The "Photos" section displays a grid of images, with the first image (a bar interior) highlighted by a red box and labeled "Cover". Below the photos is a "Set cover" dialog box with tabs for "Upload", "Albums", and "Cover photos". The "Upload" tab is active, showing a dashed box for a photo and a button labeled "Select a photo from your computer", which is also highlighted by a red box. A red arrow points from the "Cover" label in the photo grid to the "Select a photo from your computer" button.

Best Practices for using GMB Posts:

- Keep **two posts live at a time** to maximize view rate for your content. More than two will reduce viewability of your oldest post.
- Posts are live for a max of 7 days - **repost each week**.
- Post **early in the week** if you're promoting something the following weekend.

Benefits

- **Users can make bookings directly to businesses.** Reserve with Google users can search for business activity they already love or get recommendations for new activities.
- **Merchants can reach more users with minimal effort.** If you already use eligible scheduling software, you can enable bookings to your business with little to no additional set up.
- **Merchants are discoverable across devices and platforms which enables partners (such as providers) to drive more value to their customers.** Reserve with Google features are available across various surfaces, including Google Search, Google Maps, and their mobile counterparts.

From left to right: Google Maps, Google Search, and mobile apps

Users can also visit the Reserve with Google website [to](#) browse nearby businesses and make bookings

If you **don't want the integration**, you have to contact the provider first to get de-listed, then you can request that the GMB team remove the ad from your knowledge panel.
