

HOW TO EMBED A VIDEO ON YOUR WEB PAGE

What is a video embed?

A video embed is a piece of code you put on your website that displays a video. An embed code allows you to display a video without having to host the actual file on your website by pulling the video from a source such as YouTube.

Embedding a Video in HTML

STEP 1: Copy Your Embed Code

Copy this code for the Exploring Asheville: Recreate Responsibly Video:

```
<frame width="560" height="315" src="https://www.youtube.com/embed/63w5mJCPO9c" title="YouTube video player" frameborder="0" allow="accelerometer; autoplay; clipboard-write; encrypted-media; gyroscope; picture-in-picture" allowfullscreen></iframe>
```

Tip: To find embed codes for videos you want to host, on the YouTube video, click share, embed and copy the code in the dialogue box.

STEP 2: Edit Your Code

Open the HTML editor of the page, or post you wish to display the video. Find the section of code where you want the video to show and place your cursor there.

STEP 3: Paste into Your HTML

Paste the embed code you copied in the spot you selected in your code. Its that easy!

Embedding a Video on Wordpress

There are two ways to embed your video on wordpress. One is with a URL, the other is with the embed code from above. Lets Start with the URL.

STEP 1: Copy the URL

Simply copy the URL of the video you wish to display. The URL for the Explore Asheville: Recreate Responsibly video is:

<https://www.youtube.com/watch?v=63w5mJCPO9c>

STEP 2: Paste the URL into Your Visual Editor

Pasting the URL of the video into your visual editor will embed the video for you.

If you're looking to embed videos in Wordpress using an embed code, just make sure you're in the Text editor and not the Visual editor and follow the steps outlined above in the section on how to embed video in HTML on your website.

Embedding a Video on SquareSpace

SquareSpace has several options for embedding a video on your web page. All of which are outlined on their own guide, that you can find here: <https://support.squarespace.com/hc/en-us/articles/206542397-Adding-videos-to-your-site>

Embedding a Video in Wix

STEP 1: Add a Video from the Editor

On the left side of your editor, select add, and video. Under Single Player videos select YouTube.

STEP 2: Copy and Paste the URL

Take the URL of the video you wish to display and copy it. The URL for the Explore Asheville: Recreate Responsibly video is:

<https://www.youtube.com/watch?v=63w5mJCPO9c>

Click the "Change Video" button above the frame and paste the URL in the resulting dialogue box.

STEP 3: Place Your Video

Click and drag the video frame into the spot you wish to display it.
